

Charge Statement for the Peer Review of the Greenback Parrotfish Draft Status Review Report

Evaluate the accuracy, adequacy and appropriateness of data used in the Status Review document.

1. In general, does the Status Review Report include and cite the best scientific and commercial information available on the species, its biology, stock structure, habitats, and threats?
2. Are the scientific conclusions factually supported, sound, and logical?
3. Where available, are opposing scientific studies or theories acknowledged and discussed?
4. Are uncertainties assessed and clearly stated?

All information associated with the Status Review Report is to remain strictly confidential until the Status Review Report is posted to the NMFS/Office of Protected Resources website and/or the *Federal Register* by NMFS.
